

Seminar on  
Developing Strategies for the Prevention  
and Detection of Terrorism

12 – 15 March 2002

*Special Recommendations of the  
Financial Action Task Force  
(FATF)*

**Presentation by  
Dr Sandro Calvani, UNDCP Representative  
Regional Centre for East Asia and the Pacific**

Good afternoon Mr Chairman,

## **FATF Special Recommendations on Terrorist Financing**

Recognising the vital importance of taking action to combat the financing of terrorism, the FATF has agreed these Recommendations, which, when combined with the FATF Forty Recommendations on money laundering, set out the basic framework to detect, prevent and suppress the financing of terrorism and terrorist acts.

### ***I. Ratification and implementation of UN instruments***

Each country should take immediate steps to ratify and to implement fully the 1999 United Nations International Convention for the Suppression of the Financing of Terrorism. Countries should also immediately implement the United Nations resolutions relating to the prevention and suppression of the financing of terrorist acts, particularly United Nations Security Council Resolution 1373.

### ***II. Criminalising the financing of terrorism and associated money laundering***

Each country should criminalise the financing of terrorism, terrorist acts and terrorist organisations. Countries should ensure that such offences are

designated as money laundering predicate offences.

### ***III. Freezing and confiscating terrorist assets***

Each country should implement measures to freeze without delay funds or other assets of terrorists, those who finance terrorism and terrorist organisations in accordance with the United Nations resolutions relating to the prevention and suppression of the financing of terrorist acts. Each country should also adopt and implement measures, including legislative ones, which would enable the competent authorities to seize and confiscate property that is the proceeds of, or used in, or intended or allocated for use in, the financing of terrorism, terrorist acts or terrorist organisations.

### ***IV. Reporting suspicious transactions related to terrorism***

If financial institutions, or other businesses or entities subject to anti-money laundering obligations, suspect or have reasonable grounds to suspect that funds are linked or related to, or are to be used for terrorism, terrorist acts or by terrorist organisations, they should be required to report promptly their suspicions to the competent authorities.

### ***V. International Co-operation***

Each country should afford another country, on the basis of a treaty, arrangement or other mechanism for mutual legal assistance or information exchange, the greatest possible measure of assistance in connection with criminal, civil enforcement, and administrative investigations, inquiries and proceedings relating to the financing of terrorism, terrorist acts and terrorist organisations.

Countries should also take all possible measures to ensure that they do not provide safe havens for individuals charged with the financing of terrorism, terrorist acts or terrorist organisations, and should have procedures in place to extradite, where possible, such individuals.

#### ***VI. Alternative Remittance***

Each country should take measures to ensure that persons or legal entities, including agents, that provide a service for the transmission of money or value, including transmission through an informal money or value transfer system or network, should be licensed or registered and subject to all the FATF Recommendations that apply to banks and non-bank financial institutions.

Each country should ensure that persons or legal entities that carry out

this service illegally are subject to administrative, civil or criminal sanctions.

#### ***VII. Wire transfers***

Countries should take measures to require financial institutions, including money remitters, to include accurate and meaningful originator information (name, address and account number) on funds transfers and related messages that are sent, and the information should remain with the transfer or related message through the payment chain.

Countries should take measures to ensure that financial institutions, including money remitters, conduct enhanced scrutiny of and monitor for suspicious activity funds transfers which do not contain complete originator information (name, address and account number).

#### ***VIII. Non-profit organisations***

Countries should review the adequacy of laws and regulations that relate to entities that can be abused for the financing of terrorism. Non-profit organisations are particularly vulnerable, and countries should ensure that they cannot be misused:

- (i) by terrorist organisations posing as legitimate entities;
- (ii) to exploit legitimate entities as conduits for terrorist financing, including for the purpose of escaping asset freezing measures; and
- (iii) to conceal or obscure the clandestine diversion of funds intended for legitimate purposes to terrorist organisations.
